### PERMANENT COLLECTION SITES

Permanent collection sites are able to accept containers throughout the year. Before dropping off containers, call to ensure the facility will be open.

### SPONSORS

The Illinois Department of Agriculture sponsors the program in conjunction with the Agriculture Container Recycling Council; GROWMARK, Inc.; the Illinois Fertilizer and Chemical Association; G. Phillips and Sons, LLC; the Farm Bureau; and the U of I Extension Service.

### ACCEPTABLE CONTAINERS

The program accepts only clean, dry high density polyethylene (HDPE) #2, intermediate bulk and mini-bulk plastic agrichemical containers. All metal, fittings, caps, labels, booklets and foil seals must be removed. Please contact the IFCA, your local agri-chemical facility or the Department of Agriculture for more detailed instructions regarding the preparation of jugs, drums, intermediate bulk containers and mini-bulk containers.

## CONTAINER RINSING

### **To pressure rinse:**

Empty the pesticide into the spray tank and let the container drain for at least 30 seconds. Continue holding the container upside down, puncture the bottom, insert the nozzle, and rinse for the length of time recommended by the manufacturer, usually 30 seconds.

### **To triple rinse:**

Empty the pesticide into the spray tank and let the container drain for at least 30 seconds.

Fill the container with water or rinse solution.

Place the lid securely on the container. Swirl the container to thoroughly rinse all inside surfaces.

Remove the lid, pour the rinsate into the sprayer tank, and let the container drain for at least 30 seconds.

Repeat the above rinsing and draining steps at least two more times. Additional rinsing may be necessary to ensure containers are clean.
